

OSG Monthly Report

December 13, 2006

OSG Executive Team

Recent Accomplishments

- Prepared the Year 1 Project Plan and sent to the JOT.
- Preparing the Year 1 Statements of Work which require a lot of discussion and back and forth on the expectations and modes of work. 75% done.
- OSG project institutions are continuing with hiring plans.
- Running about 120,000 CPUhours a day on the OSG accessible resources.
- Held Finance Board, Executive Board and Blueprint meetings at Caltech week of 13th Dec.

Issues

- Understand the in place effort and align with defined program of work.
- Ensure all sites are reporting usage information.
- Understand STAR inefficiencies on NERSC and other sites.
- Ensure VOs have accurate knowledge on which sites support their applications.
- Planning for production level interoperability for WLCG availability monitoring and new WLCG working groups on monitoring and site administration.

Major Near Term Milestones

- Release VDT for OSG 0.6.0 12/19/06
- Define Operational Metrics for Year 1 1/1/07
- Release Security Plan 1/1/07

Calendar

WLCG Collaboration meeting, January 22-26, CERN,

JOT Meeting, February 19th or 20th, Washington DC

Executive Team face to face February 19 or 20 Washington DC

OSG Consortium All-Hands meeting, March 5-7, UCSD.

Joint OSG, Internet2, TeraGrid Campus Days March, April, May

Joint WLCG, EGEE, OSG Operations Workshop, Indiana University, June 5-7
